I heard from Cynthia this morning that she didn't see an issue with attending the Board of Health meeting. We would just need to be clear that it wouldn't be a forum for submitting comments and point to the appropriate places to submit comments.

Would you be available to meet April 16th? According to the meeting minutes from their Jan meeting, it looks like they're from 1-3.

I'd try to set up the informal meeting with Susan Nicosia for that day too to minimize our travel.

Rob

Rob,

Unfortunately I will be in Austin Texas on that date. With the incoming listing would it be important to present at an upcoming Board of Health meeting. Our next Board meeting in the 16th of April. That may be difficult with your travel the preceding week.

Joe

Hi Joe –

I called your office this morning but understand that you are away until Friday. Wanda asked that I send you an email in addition to the message she took from me.

I want to make sure that you knew that EPA is planning to propose the Columbia Falls Aluminum site to the National Priorities List this Thursday. As we've discussed, this will ensure that additional investigation will take place to determine the nature and extent of contamination at the facility. We will be sending out a press release later today letting folks know.

I'm also wondering if you will be around April 8th. I'm planning on passing through Kalispell (on an unrelated matter) and wanted to see if you'd be interested to have an informal meeting with myself and Mike Cirian, who will be the Remedial Project Manager for the site. I think it'd be great to introduce you to him.

If you have any questions, please feel free to give me a call (303-312-6664) and we can discuss.

Thanks,
Rob
